PROFESSIONAL SUMMARY

AWS Cloud DevOps Engineer with hands-on experience building in CI/CD pipelines, Docker, Kubernetes and Terraform. Skilled in automating cloud infrastructure, optimizing workflows and ensuring secure scalable deployments. Strong background in monitoring tools and scripting to drive efficiency and innovation.

EDUCATION

Bachelor of Commerce with Computer Applications

June 2023 - May 2026

Bharathiar University

KPR College Of Arts Science And Research

• **CGPA: 7.2**

AREA OF EXPERTISE

- Cloud & DevOps: AWS (EC2,AS,LB,IAM, VPC, S3, Route 53, Lambda, CloudFormation, CloudWatch, ECS, RDS)
- CI/CD & Automation: Jenkins, GitHub, Terraform, Ansible
- Containerization & Orchestration: Docker, Kubernetes
- Version Control: Git, GitHub
- Monitoring & Observability: Grafana, Prometheus, Nagios
- Programming & Scripting: Python, Linux, Shell Scripting, YAML
- Databases: MySQL
- Data Visualization & BI: Power BI, Tableau
- Soft Skills: Adaptability, Fast Learner, Problem Solving, Strategic Thinking, Decision Making, Team Collaboration

PROJECTS

- Hall Booking & Event Management System Designed and developed a complete web-based system (**BookMyHall**) for "**KPRCAS**" college event management, enabling streamlined hall reservations, scheduling and resource allocation.
- CI/CD Pipeline (Git Hub:"https://github.com/VishnuSaravanan335/CICD_PIPELINE") Built a fully automated CI/CD pipeline integrating Jenkins, Docker, Kubernetes and Grafana to support continuous integration and deployment workflows.
- Infrastructure Pipeline(Git Hub:"https://github.com/VishnuSaravanan335/Infrastructure_Pipeline") Real - Time Implementation infrastructure automation using Terraform provisioning AWS resources and ensuring scalable,secure deployments.

PROFESSIONAL EXPERIENCE

Data Analyst Intern – OXI. AI

May 2025 – June 2025

- Worked on the project “Real-Time UPI Analysis”, exploring digital payment patterns and analyzing real-time transaction data.
- Generated actionable insights to support business decisions in the fintech domain.
- Enhanced data analysis and visualization skills using modern tools and techniques.
- Gained practical exposure to solving real-world fintech challenges.

ADDITIONAL INFORMATION

- **Languages:** Tamil, English
- **Certifications:** 2 NPTEL courses, Master of Cloud Computing
- **Publications:** Published **1** research paper in IJRPR (International Journal of Research Publication and Reviews), Published **2** papers in ISBN-indexed conference proceedings
- **Awards & Activities:** Winner of **1st** Prize in Hackathon; shortlisted in **3** other hackathons
- **Projects:** Developed and deployed **BookMyHall** website for **KPRCAS** College event management
